

YOUR TRUSTED LEGAL AID

## Lexlegis.ai

### Company Overview

Lexlegis.ai is a cutting-edge legal technology startup based in India, founded with the mission to revolutionize the legal industry through advanced AI-driven legal solutions. It offers trusted legal AID via its three key features – Ask, Interact, and Draft – to empower legal practitioners with AI-powered solutions for end-to-end research and practice management.

Utilizing a Large Language Model (LLM) specifically trained on an extensive in-house database of legal judgments, Lexlegis.ai offers transparent and Explainable (AI); its responses are based on legal references, ensuring that the outcomes are accurate and do not hallucinate unlike open LLM models.

### Founders and Vision

Lexlegis.ai was co-founded by the late Shri S. C. Yadav, a retired Chief Commissioner of Income-tax and Vice Chairman of the Settlement Commission, and his son, Mr Saakar S. Yadav. Their vision was to use technology to expedite legal research and ultimately, justice. They built India's largest database of judgments with shephardised content, setting the foundation for Lexlegis.AI.

### Key Developments and Milestones

- **1998:** Launched a search engine based on summaries of decisions related to Income-tax and allied taxes.
- **2004:** Initiated the development of India's largest database of legal judgments.
- **2014:** Developed NJRS, the world's largest repository of appeals for the Income-tax Department.
- **2024:** Introduced Lexlegis.AI, a Legal LLM for Indian laws, aiding in research, document interaction, and drafting.

### Features

- **Ask:** Get concise and meaningful answers to your legal queries in seconds without hallucination and an Explainable AI (XAI) conclusion, complete with supporting citations
- **Interact:** Upload multiple legal documents and query them to get summaries and valuable insights across documents
- **Draft:** Draft legal documents effortlessly, saving hours in drafting appeals, orders, contracts, submissions and legal responses.

YOUR TRUSTED LEGAL AID

## Training and Data

- **Documents:** Trained on over 10 million Indian legal documents.
- **Tokens:** Utilizes an in-house Indian legal corpus of over 20 billion tokens.
- **Models:** Tested on foundation models ranging from 7B to 70B parameters, fine-tuned for optimal legal outcomes in India.

## Capabilities

- **Speed:** Provides answers in less than 30 seconds.
- **Comprehensive:** Access to India's largest legal content database.
- **Accuracy:** Queries fine-tuned for best-in-class results.
- **Security:** Strong focus on data security and privacy.
- **Bias-Free:** Designed to be unbiased in its responses.
- **Explainable AI (XAI):** Offers clear explanations of AI's reasoning, including opposing views.
- **Anti-Hallucination:** Limits responses to the trained model to avoid hallucinations

## Clientele and Stakeholders

Lexlegis.ai caters to a broad spectrum of clients, including:

- Law firms
- Courts and tribunals
- Government departments
- Professionals and individuals
- SMEs and MSMEs
- Corporate legal departments

## Leadership Team

- **Mr Saakar S Yadav, CEO:** Mr Yadav has built successful products and businesses in the tax and compliance industry, including TDS Suite, GST Plus, and Lexlegis.ai. He is also an investor and mentor in technology, sustainable farming, and education.
- **Mr Vishrut Shrivastava, CTO:** With a decade of international experience, Vishrut drives AI processes and best practices in application deployment, LLM modeling, and technology implementation.
- **Mr Praveen Sood, COO:** Boasting over 35 years in finance, Praveen has led major financial initiatives and optimized global investor engagement, particularly during his tenure at Tata Steel.
