

YOUR TRUSTED LEGAL AID

**Mr. Saakar S. Yadav**  
**Founder, Lexlegis.AI**

Mr. Saakar S. Yadav is the visionary founder of Lexlegis.AI, a pioneering AI-driven legal solutions research firm in India. With over 25 years of deep domain expertise, Mr. Yadav has been instrumental in integrating cutting-edge technology for faster and more efficient legal research. His proficiency in legal and tax search processes and document handling has been pivotal in resolving complex legal issues. He is a frequent speaker at various government seminars on legal, tax and compliance, sharing his insights with a broad audience.

Inspired by his father, the late Shri S. C. Yadav (IRS Retd Chief Commissioner of Income Tax and Vice Chairman of the Settlement Commission), Mr. Yadav embarked on a mission to create India's largest database of judgments. Together, they laid the foundation for what would become Lexlegis.AI, revolutionizing legal research with AI.

Mr. Yadav is a remarkable entrepreneur, technologist, and visionary who has significantly contributed to the field of information technology. In 2001, he made history by launching PC Slate, India's first Tablet PC, revolutionizing technology interaction and laying the foundation for future advancements.

Before founding Lexlegis.AI, Mr. Yadav led the Central Data Processing Center (CDPC) of the National Judicial Reference System (NJRS), managing and building the world's largest repository of appeals for the Government of India. A self-taught technocrat, Mr. Yadav has developed several groundbreaking products, including myITreturn, TeamNest, and e-TDS, widely adopted by both corporate and government organizations. Notably, he managed over 1 million tax filers on myITreturn.com and created a data analytics platform crucial to the GST pilot rollout. His continuous innovation in legal tech and tax solutions underscores his commitment to advancing these fields.

He has keen interests as a farmer, investor, politician, teacher and trained pilot. A National Defence Academy (NDA) dropout, he is often found teaching at a school, playing cricket at the racecourse, instructing kids on the 'banana kick' in football, mentoring startups, or visiting friends' offices to help them automate their systems. On weekends, he writes poem or attends airplane flying classes.
